+91 9995497541 | adithyanmenont@gmail.com | LinkedIn | GitHub | Portfolio

## Summary

**B.Tech Graduate in Artificial Intelligence and Data Science** with hands-on experience in **Full Stack Web Development** using **Java, Spring Boot, React, and MySQL**. Skilled in **Core Java, Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), and RESTful API Development**. Experienced in building, testing, and deploying web applications using **Git/GitHub version control** and **Agile/Scrum methodologies**. Seeking a **Full Stack Developer** or **Software Engineer** role to design and deliver scalable, production-grade applications.

## Skills

**Programming Languages:** Java, JavaScript (ES6+)

**Frameworks:** Spring Boot, React.js

**Frontend:** HTML5, Tailwind CSS, Responsive Web Design, Async/Await, Fetch API

**Backend:** Node.js, RESTful APIs, JDBC

**Databases:** MySQL, SQL Queries, Joins, Subqueries, Indexing, Normalization, CRUD Operations

**Core Java:** Data Structures (Arrays, Linked Lists, Trees, Sorting/Searching), Algorithms, Time/Space Complexity, Collections Framework, Multithreading, Exception Handling, OOP

**Tools & Platforms:** Git, GitHub, VS Code

**Concepts:** SDLC, DBMS, Computer Networks, Problem Solving

## Projects

**Healthcare Database System — CarePass** | *HTML, CSS, JavaScript, Google Apps Script* Jan 2025 – Mar 2025

- Built a full-stack, mobile-responsive healthcare record management web application enabling secure and instant patient data retrieval via NFC technology.
- Designed and implemented **RESTful API** endpoints with **CRUD operations** for patient record management, reducing data retrieval time significantly.
- Implemented **role-based access control (RBAC)** and NFC-based authentication to ensure data privacy, security, and compliance.
- Optimized backend database queries using **Google Apps Script**; improved system scalability and performance by 30%.
- Followed **SDLC** and **Agile** practices; used **Git and GitHub** for version control and collaborative development.
- Live:* [Link](#)

**Travel Explorer — Destination Discovery Website** | *HTML, CSS, JavaScript* 2025

- Developed a responsive travel website featuring curated destinations with content cards, booking integrations, and clean UI/UX design; deployed on Netlify.
- Ensured optimized page load performance and full cross-device responsiveness [**ADD: e.g., number of destinations/pages, Lighthouse score, or load time metric**].
- Live:* [Link](#)

**Personal Developer Portfolio** | *HTML, CSS, JavaScript* 2025

- Designed and deployed a personal portfolio on GitHub Pages showcasing projects, skills, and experience with a clean, professional UI [**ADD: e.g., number of projects featured, or a performance/responsiveness metric**].
- Live:* [Link](#)

**Savor — Food Delivery Web App** | *Java, Servlets, JSP, MySQL, Tomcat, Maven* Jun 2026 – Jun 2026

- Built a full-stack food delivery web application with user authentication (SHA-256 hashing), dynamic menu with category filtering and search, shopping cart, and order management.
- Implemented **DAO design pattern** with **JDBC** for clean database separation; used **transaction management** for atomic order placement across multiple tables.
- Designed a premium responsive UI using pure HTML and CSS; deployed as a **WAR file** on Apache Tomcat 9 with Maven build automation.
- GitHub:* [Link](#)

## Experience

---

### Full Stack Web Development Intern

Tap Academy

Jan 2026 – August 2026

Bangalore, Karnataka

- Undergoing intensive full-stack training in **Java, JavaScript, React, Spring Boot, and MySQL** for real-world application development.
- Practicing **Data Structures and Algorithms (DSA), Core Java**, and **problem-solving** through daily coding challenges and technical interview preparation.
- Built and integrated **RESTful web applications** applying **MVC architecture, OOP principles, and DBMS** concepts across multiple projects.
- Studied **JVM architecture, Collections Framework, Multithreading, Exception Handling**, and system design fundamentals.

### Data Analyst Intern

Robomatiic

Jul 2025

Coimbatore, Tamil Nadu

- Analyzed and visualized business sales data using **Python (Pandas, NumPy, Matplotlib)** and **Excel Pivot Tables** to identify key revenue trends.
- Prepared structured analytical reports and dashboards supporting data-driven decision-making for stakeholders.

### Python Programming Intern

IPCS Global

Feb 2024 – Mar 2024

Kozhikode, Kerala

- Worked on **Python** fundamentals including file handling, control structures, debugging, and small-scale application development.
- Collaborated with frontend teams to support backend logic, improving data flow and overall problem-solving efficiency.

## Education

---

### Dhanalakshmi Srinivasan College of Engineering (Autonomous)

B.Tech in Artificial Intelligence and Data Science — CGPA: 7.78

2022 – 2026

Coimbatore, India

### TRKHSS Vaniyamkulam

Higher Secondary — Bio Science — Percentage: 70%

2020 – 2022

Kerala, India

## Certifications

---

- **Be10x AI Tools Workshop** — Workshop covering AI fundamentals, ChatGPT prompt engineering, and real-world AI application use cases.
- **Generative AI Fundamentals — IBM SkillsBuild** — Foundational knowledge of Generative AI concepts, applications, ethical considerations, and content generation models.
